

9/9/80 - Trees.

Dear Vickie and Jimmy,

Here we are again on another little trip, and we are in a deluxe, gorgeous hotel on the straits of Juan de Fuca. We are on the view side by the water and look right across to Victoria. I know how excited you must get when you go on your trips and see all of these great places, as I feel the same way right now. When we got to our room I called Diane to wish her happy birthday and she sounded so happy. She is in a wonderful neighborhood with many little children.

We plan to stay here for two or three nights and tomorrow we are going to take the ferry over to Victoria.

On the way here we stopped at Tseyah State Park on Hood Canal and had our picnic lunch and beer. Remember, Jimmy, when we went there with Dabblatons and Benson and camped over night and it rained so hard we had to leave the next morning.

Marianne Wheeler has written again and I will send your letter to you as she asked me to do.

We are going for a walk now along the wharfs and docks and look around.

We are back now and watched the ferry dock for the next run to Victoria. After a few minutes rest and change of clothes, we are now ready to go out for dinner. Maybe at the dining room here or a little place we saw along the wharf.

Love, Mom.
